

SUBHAM BISWASARA

MERN STACK DEVELOPER | FULL-STACK DEVELOPER

Berhampur, Odisha, India | +91 9861807803 | subhambiswasray345@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer and Full-Stack Development Trainee with hands-on expertise in building responsive web applications, RESTful APIs, secure authentication systems, and database-driven solutions. Proficient in JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, Python, Django, SQL, and Redux. Track record of engineering 50+ scalable REST API endpoints, designing clean UIs, and integrating third-party services. Adept at cross-functional problem solving, state management, and modern software development workflows.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Vite, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, CRUD Architecture

Databases: MongoDB, Mongoose ORM

Auth & APIs: JSON Web Tokens (JWT), OTP Verification, Role-Based Access Control (RBAC), REST Integration, Axios

Developer Tools: Git, GitHub, Postman, Docker, Brevo API

Core Competencies: Full-Stack Development, State Management, Database Modeling, API Debugging & Testing

TECHNICAL EXPERIENCE

Full Stack Development Trainee

QSpiders | Python Full Stack Development Program

- Completed rigorous training in Python Full Stack Engineering, focusing on modular architecture, RESTful backend design, and frontend integration.
- Architected and deployed 50+ REST API endpoints using Python and Django, incorporating full CRUD functionality, data validation, and custom error handling.
- Developed a Bank Management Application with secure transaction routing and role-based workflows utilizing HTML, CSS, JavaScript, Django, and SQL.
- Executed API testing and endpoint validation using Postman, reducing integration bugs and ensuring optimal payload performance.

EDUCATION

Bachelor of Computer Applications (BCA) | CGPA: 8.5 / 10 | Graduation Year: 2025

Kalam Institute of Management and Studies (KIMS), Berhampur University

STRENGTHS & KEY COMPETENCIES

- Full-Stack Integration:** Skilled in unifying decoupled frontend UI with RESTful backend API architectures.
- Problem Solving & Debugging:** Strong grasp of algorithmic logic, API payload validation, and system debugging.
- Collaboration & Workflow:** Proficient in version control using Git/GitHub, agile collaboration, and continuous skill expansion.

KEY PROJECTS

EventraX — MERN Event Booking Platform

- Engineered an end-to-end event booking web application utilizing React.js, Node.js, Express.js, and MongoDB.
- Implemented robust authentication features, including JWT authorization, OTP email verification via Brevo, and granular Role-Based Access Control (RBAC).
- Built dynamic CRUD operations for event publishing, filter/search logic, real-time seat tracking, and separate portal views for users and admins.
- Designed clean, responsive user interfaces with Tailwind CSS and handled asynchronous REST API communication via Axios.

CarAge — Car Information Web Application

- Developed a responsive single-page web application in React.js to showcase vehicle spec comparisons and interactive car listings.
- Integrated external REST APIs for live data retrieval and implemented reusable, stateful React components for enhanced maintainability.
- Optimized UI layout for cross-device responsiveness and fast page load speeds using modern CSS techniques.

HotelHub — Interactive Hotel Booking Web App

- Designed and engineered a dynamic hotel booking interface using core HTML5, modern CSS3, and modular JavaScript (ES6+).
- Integrated GSAP (GreenSock Animation Platform) to implement fluid page transitions, scroll-triggered animations, and modern micro-interactions.
- Ensured full cross-browser compatibility and optimized mobile responsiveness across varying screen viewports.

Additional Projects

- Developed multiple frontend UI clones inspired by platforms including KFC, Swiggy, Rapido, Quick Ride, and CDNJS.
- Built projects using React.js, JavaScript, HTML, CSS, REST APIs, and responsive design techniques.
